| ▲ Managing Asbestos in Schools & Buildings <i>at Orange Beach, AL</i> | 26-27 | \$250      |

These courses are held at the Bryant Conference Center on The University of Alabama campus in Tuscaloosa, Alabama, unless otherwise noted.

The course fee includes course materials, photos required for accreditation, parking, and lunch on the full-day courses.

If you want to take any of our courses, please register at least 14 days in advance of the class. We will make a decision to hold or cancel a course, based on enrollment, between 7 and 14 days before the class. If we cancel a course, we will issue you a full refund and notify you at least 7 days before the class. If you are not registered, we will not know to call you.

Our on-line Health and Safety Management Certificate Program was developed for employees who have health and safety responsibilities but have no formal education in health and safety. It is also geared toward those who have moved into health and safety management, or who want to build competency in health and safety. A total of ten courses make up the Certificate Program: four core courses and six elective courses. The core courses are: Introduction to OSHA; Introduction to Workplace Safety; Introduction to Industrial Hygiene; and, Introduction to Workers' Compensation. The elective courses you can choose from are: Introduction to Mine Safety; Managing Hazard Communication Programs; Managing Ergonomic Programs; Managing PPE Programs; Managing Fleet Safety Programs; Managing Bloodborne Pathogen Programs; Managing Heat Stress Programs; Managing Wellness Programs; Managing Health Promotion; and, Understanding Basic Electricity for Electrical Safety. Each course is equivalent to around 10 hours of classroom instruction. The fee for completing the entire certificate program (10 courses) is \$2,700. Individual courses may be taken for a fee of \$295 each. Contact Nancy at [nholleman@ccs.ua.edu](mailto:nholleman@ccs.ua.edu) for more information about this popular program.
